Enrollment No.: _____

Darshan UNIVERSITY

Darshan Institute of Computer Application
B.Sc. (Hons.) - CS | Sem-5 | Winter-2025

Course Code	:	2301CS501	**Date**	:	08-10-2025
Course Name	:	Computer Network	**Duration**	:	150 Minutes
			Total Marks	:	70

Instructions:
1. Attempt all the questions.
2. Figures to the right indicates maximum marks.
3. Make suitable assumptions wherever necessary.

Q.1	**(A)**	What is Computer network? Explain different types of computer networks with examples.	**4**
	(B)	Define delay, loss, and throughput in computer networks.	**3**
		OR	
		Define Transmission media. Briefly explain guided and unguided transmission media.	
	(C)	Draw and explain OSI reference model.	**7**
		OR	
		Explain different types of network topologies with neat diagrams.	
Q.2	**(A)**	Explain importance of application layer protocols.	**4**
	(B)	Explain DHCP lease process in short.	**3**
		OR	
		Write short note on SNMP components.	
	(C)	Explain HTTP request–response model with example.	**7**
		OR	
		Explain SMTP in detail with diagram.	
Q.3	**(A)**	A sender wants to transmit the following 16-bit words using checksum method: Word 1: 1010101010101010 Word 2: 1100110011001100 Find the checksum and show how the receiver verifies the data.	**4**
	(B)	Differentiate between UDP and TCP.	**3**
		OR	
		List and explain the services provided by the transport layer.	
	(C)	Explain the principles of reliable data transfer protocols.	**7**

OR

What is congestion? Explain congestion control mechanisms in TCP.

Q.4	**(A)**	Draw and explain the architecture of a router.	**4**
	(B)	What is subnetting? Explain with example.	**3**

OR

Compare addressing schemes of IPv4 and IPv6.

	(C)	Explain distance vector routing algorithm with example.	**7**

OR

Explain link state routing algorithm with steps.

Q.5	**(A)**	Write short note on polling and token passing.	**4**
	(B)	Differentiate between error detection and error correction.	**3**

OR

Differentiate between hub, switch, and bridge.

	(C)	Explain ALOHA and Slotted ALOHA.	**7**

OR

Explain CRC (Cyclic Redundancy Check) with an example.

***
